

# RGB COFFEE ROASTERS

## BAKING SINCE 2014

All bread & cakes are baked in-house. We love experimenting with baking without dairy and eggs.

Our bakery items will change from time to time, but we use unbleached flour, organic brown sugar, good quality eggs we crack ourselves.

We do not use premixes (which often have stabilising additives), low quality pre-cracked egg mixtures or commercial fillers and pastes.

**Ask us about whole cakes, cupcakes, brownies, muffins or canape catering.**
